02/2022 – 08/2022 | Pune, India

- Collaborated with senior developers to implement website features and functionality.
- Participated in client meetings to gather requirements and provide technical expertise.
- Assisted in the deployment and launch of websites, ensuring smooth transitions and minimal downtime.
- Updated and maintained existing websites based on client feedback and requirements.

### 📁 PROJECTS

#### Car Rental [🔗](#)

Wordpress

Developed a bespoke car rental booking website on the WordPress platform, providing a streamlined and user-friendly experience. The site features a visually appealing design, intuitive navigation, and seamless integration of booking functionalities. From responsive UI elements to secure payment gateways, this project exemplifies my proficiency in leveraging WordPress to create tailored solutions that meet client needs and enhance the user journey.

#### Feellight Rtms [🔗](#)

Wordpress, Elementor

Crafted a lightweight and user-friendly website for an RTMS clinic, seamlessly blending informative content with a clean design. This project showcases my ability to create tailored solutions, ensuring accessibility and ease of navigation for users seeking information about RTMS therapy. From intuitive layouts to informative sections, the RTMS website reflects my commitment to delivering functional and visually appealing digital experiences.
